

# Intro to NN & DL - Week 2

## Learning Objectives of the session:

- Gauging learner's understanding on the topic of the week.
- Understanding the concepts clarity of the learners on:
  - Building Blocks of Neural Networks

Case Studies (Hands on) on the topics mentioned.

- Doubts solving, industry perspective and practices.
- Summary of the session's learning.

## Structure of the Session

Time Distribution of 2 hours	Topic	Detail
10 min	<ul style="list-style-type: none"> <li>• <b>Gauge learner's understanding</b> Introduction to Neural Networks &amp; Deep Learning</li> </ul>	<ul style="list-style-type: none"> <li>• Go through all the learners in the group and try to understand the reach of the week's learning within the group on the week's topics.</li> <li>• Highlight the important concepts majority of the group is facing doubts on.</li> </ul>
20 min	<ul style="list-style-type: none"> <li>• Concepts clarity of the covered topics.</li> </ul>	<ul style="list-style-type: none"> <li>• Clarify the concepts on the doubts identified.</li> </ul>
60 min	<ul style="list-style-type: none"> <li>• Case study on Fraud Detection</li> </ul>	<ul style="list-style-type: none"> <li>• Use the case study provided to have a hands on exercise. Explain the problem statement, features and data preprocessing and use various techniques to come to a result through the model.</li> <li>• Data : Credit Card.csv</li> </ul>
25 min	<ul style="list-style-type: none"> <li>• Doubts clearance</li> <li>• Industry perspective on the mentioned topics</li> <li>• Buffer</li> </ul>	<ul style="list-style-type: none"> <li>• Use this time to clarify additional doubts.</li> <li>• Also, explain the industry practices on the techniques as per your experience.</li> </ul>
5 min	<ul style="list-style-type: none"> <li>• Summarize the session</li> </ul>	<ul style="list-style-type: none"> <li>• Provide a summary of the session.</li> </ul>
